about us

Having been established in 1990, our company is the first to manufacture shear connectors in Konya; the ever-growing and developing city of the Central Anatolian Region. Having started out its business life in a working area of 40 square meters, which is now 20.000 squaremeters in total with an enclosed area of 5000 squaremeters, our company continues to carry out its activities with a personnel of 60 and, is glad to see these days.

**Vision:**

Our vision is to be among the leading companies both in Turkey and in the World by means of its leading solutions and services, and unique solutions and to meet the satisfaction of our company's target group.

**Mission:**

Our mission is to offer the best products in the sector of shear connectors to our customers through our reliable and devoted personnel, to meet the needs and expectations of the customers and finally to render services of fine quality, accuracy stability.

Our company, which continues its activities
in a closed area of 21000 m2 with 60 personnel,
is happy to reach today.
